

# **MOBILTECH**

## **SLA 2000**

### **USER NOTES**

- Mic and Headphone must both be plugged in for proper operation. Push plugs in tight.
- To test or compare, push red PTT button, listen for sound level, audio quality, mic “hiss” and “cracking”.
- Shake cords and listen for “break-up” to find intermittent connections.
- Plug Helicopter headset into helicopter plug and follow above instructions for test.
- Change battery after 8 hours of operation.
- The SLA 2000 should be used to test GA 500 OHM headsets.
