**AV-585 Antenna Coupler**  
**Frequency Range: 108-118 MHz & 328-336 MHz**  
**Receive Only**

**Installation Instructions**

- 1.) Locate mounting position (typically behind panel) and secure the antenna coupler.
- 2.) Route and attach cable from receiver(s) and antenna using Amphenol Connex BNC plug crimp connector (P/N: 112116 or equivalent).

The conditions and tests for TSO approval of this article are minimum performance standards. Those installing this article, on or in a specific type or class of aircraft, must determine that the aircraft installation conditions are within the TSO standards. TSO articles must have separate approval for installation in an aircraft. The article may be installed only according to 14 CFR part 43 or the applicable airworthiness requirement.
